Dear Sir:

This explanation relates to Japanese Patent Publication Document 10-181189 as cited on the accompanying form PTO-1449. Attached is an English-language Abstract which provides pertinent information. The document (entitled "Ink Jet Recording Material") apparently discusses the use of a "polyurethane resin emulsion having [a] polycarbonate chain" (and/or a "polyester chain") to "improve weather resistance and discoloring properties" and "to give durability and productivity". Other information is presented in the Abstract.

Should any further information be needed regarding the item listed above, it will be provided immediately upon request.

Respectfully submitted,
